COMPANY PROJECTS

Ennum Ezhuthum -Website
Proficient in web development, with a focus on utilizing Bootstrap framework to create responsive and visually appealing websites. Skilled in optimizing website performance by implementing lazy loading techniques for images, ensuring   faster loading times and improved user experience.

M&D Foundation -Dashboard
Developed a comprehensive dashboard project utilizing JavaScript, jQuery, and Bootstrap frameworks to efficiently manage and track various aspects including works, vehicles, accidents, and insurance details. Demonstrated proficiency in frontend development by creating a user-friendly interface for maintaining and updating vehicle-related information, works schedules, and accident reports. Implemented responsive design principles with Bootstrap to ensure seamless functionality across devices, enhancing accessibility and usability for users.
